

our technologies for your success

Dear customers,

Since September 1st 2011 the former Oerlikon Carding Division operates under a new ownership and the shares of the three companies are held by Hi Tech Textile Holding GmbH in Austria.

In this way we are now linked to the network of the global operating China Hi Tech Corporation (CHTC), one of the leading state-run technology companies in China which operates in the sections such as textile machinery (No.1 in China, No. 2 worldwide), utility vehicles, textiles and trading. CHTC has a remarkable access to the Asian and especially to the Chinese market as well as a strong infrastructure and an excellent financial power.

CHTC is committed to continuing the existing activities and employment in Europe and will make more investments into European locations to enrich the R&D ability and to reduce costs by optimizing resource allocation worldwide. The new group will be an independent business division and continue its dedication to the traditional markets as a base for high technology products. In addition we can ensure to serve the existing and future customers in the same manner, with quality products still being made in Europe.

AUTEFA Solutions is based on

AUTEFA automation GmbH	now operating as	AUTEFA Solutions Germany GmbH
Oerlikon Neumag Austria GmbH	now operating as	AUTEFA Solutions Austria GmbH
Oerlikon Neumag Italy S.p.A.	now operating as	AUTEFA Solutions Italy S.p.A.

Combining the reliable technologies and the long-standing experience of the former companies AUTEFA, FEHRER, F.O.R. and OCTIR, **AUTEFA Solutions** delivers innovative solutions for the individual machines to complete advanced carding lines for the nonwoven industry.

The newly founded company, **AUTEFA Solutions**, aims to be one of the premier suppliers in the market segments:

- Baling
- Nonwoven
- Wool
- Automation Consumer Goods

AUTEFA, FEHRER, F.O.R. and OCTIR as **AUTEFA Solutions** can be seen as a symbol for high quality machinery developed and manufactured in Europe.

AUTEFA Solutions provides turnkey lines as well as innovative technological concepts for economic and high quality products. Customers benefit from the flexibility, technological expertise, and special know-how of our staffs at the company locations in Germany, Austria and Italy.

Employees and Management of the companies continue to be the same and we look forward to convincing you with our performance and products also in the future.

Dr. Stefan Schlichter
Managing Director (CEO)

AUTEFA solutions = AUTEFA automation + FEHRER + F.O.R. + OCTIR
