

# DYNAMIC BUFFER SYSTEM

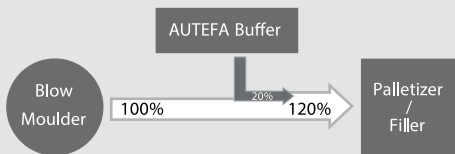

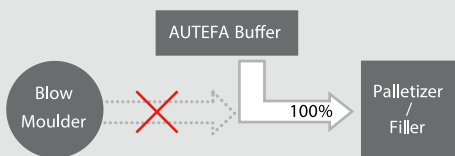

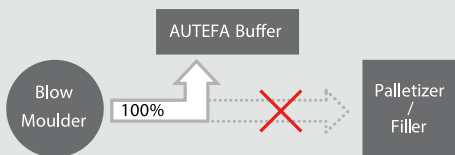

for plastic containers

DYNAMISCHES  
PUFFERSYSTEM

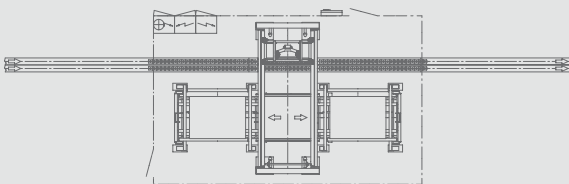

- Dynamic buffer system for oriented PET/HDPE bottles and containers between blow moulder and palletizers or fillers
- Highly efficient storage solution
- No quality impact even on light weight products
- Improves the total line efficiency significantly

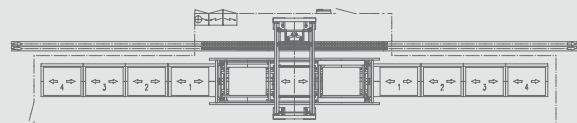

- Dynamisches Puffersystem für ausgerichtete PET/HDPE Flaschen und Behälter zwischen Blasmaschine und Palettierer oder Abfüllanlage
- Höchst effiziente Lagerlösung
- Kein Qualitätsverlust, auch nicht bei Leichtprodukten
- Erhebliche Verbesserung der Gesamtproduktivität der Linie

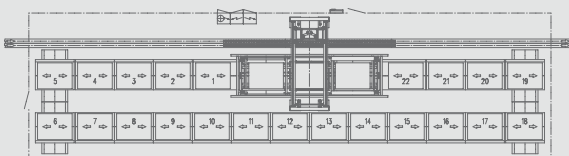

### BUFFER SYSTEM > 30 MINUTES

### BUFFER LINE > 6 HOURS

### BUFFER LOOP > 18 HOURS

### BUFFER STORAGE > SEVERAL DAYS
